

IonCleanse® Premier™

Item SKU#: AMD1021

The IonCleanse® Premier™ is a state of the art unit that features:

1. [Five different session programs](#)

As with any cleansing modality, versatility is extremely important. With the IonCleanse® Premier™ Vitality Enhancement System the user is able to select from five session programs allowing almost anyone to use the equipment. Most of the other units on the market offer only a single session program. Users of these "mono-polar" units may eventually complain of dizziness, nausea and light-headedness during the session. These effects are attributed to using the wrong polarity. Users of the IonCleanse® Premier™ will almost never feel these sensations.

2. [Patented dual polarity technology](#)
3. [FCC & CE safety approvals](#)
4. [Overnight warranty repair service](#)
5. [Lifetime Customer Service & Support](#)
6. [Made in the USA](#) 

The IonCleanse® Premier™ purchase includes: [one array with one extra set of replacement plates](#) (either type can be selected below), the [IonCleanse® foot tub](#), [liners](#), [array cleaner](#), [salt](#), [client brochures](#), and the [IonCleanse® marketing pack](#). For more info, please see the "Premier™ vs Solo™" tab below.

Price: ~~\$2,895.00~~

Sale Price: \$2,495.00*

***Standard 2 year warranty**

Extended 4 year warranty (\$350)

IonCleanse® Solo™

Item SKU#: AMD1022

The IonCleanse® Solo™ is the latest ionic foot bath created by A Major Difference, Inc. Now available for home use, the Solo™ allows individuals and families the opportunity to experience the IonCleanse® process without the heavy initial investment. The IonCleanse® Solo™ features:

1. [The same quality and power as the Premier™](#)

The IonCleanse® Solo™ is constructed using the same quality of components as the Premier™. Because of the volume of sales of the Solo™, we are able to take advantage of volume discounts on parts and components and pass the savings along to the consumer. Additionally, the Solo™ outputs the same current into the water as the Premier™. A 30 minute session with the Premier™ on mode three will yield the same results as the Solo™ for 30 minutes.

2. [A single-program session](#)
3. [Patented dual polarity technology](#)
4. [FCC & CE safety approvals](#)
5. [Lifetime customer service & support](#)
6. [Made in the USA](#) 

The IonCleanse® Solo™ purchase includes: **one array** (either type can be selected below), the **IonCleanse® foot tub**, **liners**, **array cleaner**, and **salt**. For more info, please see the "Solo™ vs Premier™" tab below.

Array Type 316

Price: ~~\$1,995.00~~

Sale Price: \$1,695.00

Standard 1 year warranty / Extended 3 year warranty (\$250)

How does it work?

The array goes into the water with the hands, feet, or other body parts, and the control unit delivers a small direct current into the array, which causes the metals within the array, in combination with the water and salt, to generate positively and negatively charged ions. These ions create a relaxation effect, similar to walking along a beach, which allows the user to enter a pleasant meditative state. When combined with nutrition and other relaxation techniques, the IonCleanse® will provide an enhanced feeling of well being, stress levels will be reduced, and users will feel more energy.

For the purpose of IonCleanse® discussions, positive and negative relate to electrical, rather than chemical phenomena. When the IonCleanse® is set on positive, the current flows to the positive pole in the array, which results in more negative ions being produced in the water, $4\text{H}_2\text{O} + 4\text{e}^- \rightarrow 2\text{H}_2 + 4\text{OH}^-$. In this polarity we have hydrogen gas coming from the array, and we are left with an abundance of negatively charged ions in the water. Therefore, positive polarity generates a negative ion flow.

When the IonCleanse® is set on negative, the current flows to the negative pole in the array, which results in more positive ions being produced in the water, $2\text{H}_2\text{O} \rightarrow \text{O}_2 + 4\text{H}^+ + 4\text{e}^-$. In this polarity we have oxygen gas coming from the water, and we are left with an abundance of positively charged ions in the water. Therefore, negative polarity generates a positive ion flow. This process is known as the electrolysis of water.

Ionization has been used for many decades. However, the concept of using ionization in a foot bath, such as the IonCleanse®, is a relatively new idea. Similar phenomena occur while walking along a beach or near a waterfall. Ions are generated by the movement of the water molecules. We are creating the same reactions with the IonCleanse®, only magnified many times over.

Premier™ vs Solo™

The IonCleanse® Premier™ is the ionic foot bath for the practitioner. The Premier™ comes with five different session programs, a two-year limited warranty on parts and labor, and a marketing package with brochures which will greatly enhance any practitioner's practice.

With a purchase of the IonCleanse® Premier™, the practitioner also receives overnight warranty repair service. Should you experience a problem with your IonCleanse® Premier™ during the warranty period that is due to a manufacturer's defect, AMD will overnight a temporary unit to you (available to US residents only) and provide you with a prepaid return service for your malfunctioning unit. This service is not available for the IonCleanse® Solo™.

The chart below outlines the differences between the IonCleanse® units.

	Premier™	Solo™
